# The European Green Deal

**We would like to discuss:**

Our total climate benefit  
Our contribution to green transition  
All our products are important  
Nordic forestry is sustainable  
The forest owner is part of the solution

**Unfortunately, the Brussels debate focuses on:**

Forests main role is to be a sink  
More forest land must be protected  
Mainly long-lived products are good  
Nordic forestry is not sustainable  
Forest owners must be told what to do
