

**Save the Date: NSPA Forum 2022**  
**24-25 March 2022, Skellefteå, Västerbotten, Sweden**

**”NSPA delivers to the EU”**

**What:** the annual Forum for Northern Sparsely Populated Areas network

**Where:** Skellefteå, Sweden

**Date:** 24-25<sup>th</sup> of March 2022

**Time:** Lunch to lunch

We wish to welcome you to the NSPA forum of 2022. The forums of 2020 and 2021 was inhibited due to the pandemic. This time we hope that as many as possible will be able to join for a gathering to reconnect to each other and take the important common NSPA agenda further.

Focus for the forum will be on strengthening the cooperation in the northernmost of Europe to the benefit of all Europe. The regions of the NSPA are in the frontline for the green industrial transition. We deliver resources and knowledge to the European electrification and the EU Green deal and provide an overall unique innovation system in the European Arctic.

Invited guests and workshops will focus on our areas of opportunities to grow together and deliver sustainable development in the EU. During the days in Skellefteå we have the pleasure to invite you to a conference reception in Sara Kulturhus, the tallest wooden building in Europe, and have opportunity to visit the location for the new world leading battery factory, Northvolt.

More information and registration will come during the beginning of 2022.
